Answer to any question may be broadly categorized into two ways such as objective and long answer type. Answering questions in a long or narrative manner may be time-consuming and may create physical and psychological burden. Further, it may not satisfy the answer what the question proposed to be. In such cases, answer in short form or objective manner may be preferable. Psychology is a very broad subject to understand the concept and its meaning. In this regard, reader prefer the exact meaning and concept to understand psychology better through some multiple choice questions and can prepare the answer easily by going through the important points and statement which is required for certain purpose.

In the Union Public Services (UPSC) (India), candidates prepare a huge number of papers and questions starting from general knowledge to their main stream of the optional paper for main the examination. In this context, it is very difficult for them to go through many branches of psychology, which is a very broad topic in nature. In this context, the present book will definitely help them to prepare better for their prelims and main exams interested in the field of psychology without spending much time, effort and also the cost factor. Similarly, the present book will serve students to prepare for University Grant Commission (UGC), National Educational Test (NET)/Junior Research Fellowship (JRF) programme and other competitive examinations in psychology.

The **first chapter** of the book *Introduction to psychology*” defines the history of scientific psychology, concept, definition, scope and various branches of psychology. Which will help the students to prepare and know briefly about what exactly psychology means. The **second chapter** of the book *Biological bases of behaviour*’ includes the items briefly from the stream of Bio-psychology or Physiological Psychology. The chapter will help students to know how the behavior of the organism is affected by various structures of nervous system, role of hormones and other body chemicals. The **third chapter** of the book *Sensation, Attention and Perception*’ intended to cover the items in most emergent area of psychology, i.e., cognitive psychology. Similarly the **fourth chapter** ‘Learning and Conditioning’ **fifth chapter** ‘Memory process’ and **sixth chapter** ‘Thinking Process’ proposed the other important areas of cognitive process both in higher order and lower order functioning. The **seventh chapter** of the book includes the items of *Motivations and Emotions*’ emphasizing the concept, meaning, definition and the application of motivation and emotion in various fields where the application of motivation and emotions are most crucial in nature. The **eighth chapter** of
the book has focused ‘Personality Type and Trait’ with the concept, meaning, various types of personality, traits of personality and its role in various sectors. Another important cognitive process, ‘Intelligence’ has been defined in a well-mannered way in the ninth chapter of the book. The tenth chapter of the book contains the recent important field of psychology ‘Health Behaviour and Coping Strategies.’

Role of social psychology and organizational behavior in psychology is not restricted to the field of psychology only. It is also an important field of concern in other branches of humanities and social science streams such as, sociology, anthropology, commerce, economics and even in business studies. In this context, the Eleventh chapter of the book ‘Attitude and socialization’, Twelfth chapter titled ‘Group and Group Behaviour’ Thirteenth chapter titled ‘Communication’ in group and society and Fourteenth chapter titled ‘Leadership’ will help students to know various aspects of social and organisational psychology to deal with their society effectively, besides, satisfying the objective of their entrance examinations. Fifteenth chapter of the book contains the items of ‘Concept of Abnormal Psychology’ dealing with a brief knowledge about the concept and meaning of abnormal behavior, various disorders related to abnormal psychology and the intervention processes for various abnormal behaviours. Similarly, the sixteenth chapter of the book included the most important items related to various types of ‘Mental Disorders and Some Major Intervention Techniques (Therapies)’ to deal with these disorders. Seventeenth chapter of the book deals with the concept of ‘Life Span Development’ and Eighteenth chapter of the book contains the concept, cause and etiology of various types of ‘Developmental Disorders’ and intervention strategies to handle these disorders effectively. Finally the last two chapter of the book, nineteenth chapter titled ‘Research Methodology in Psychology’ and Twentieth chapter of the book ‘Basic Statistics in Psychology’ based on the various research techniques, designs, and uses of descriptive and inferential statistics for both qualitative and quantitative data analysis.

Last but not least it can be said that the book contains total of twenty chapters including 2000 to 3000 multiple choice question answers in different way, like Fill in The Blanks, True/False, Assertion/Reasoning, etc., which are more relevant to most of the competitive examinations. These chapters of the book cover most of the important branches of psychology and will definitely help students interested for different types of examination to score better having a healthy and sound knowledge. The wordings and terminology of the book is simple and reader-friendly which will definitely help the interested beginners to attend any competitive examination in psychology.

– Avinash Kumar and Gopal C. Mahakud
For the completion of this book, we have received support and encouragement from many. At the outset, tremendous indebtedness is due to our parents who for their constant support throughout.

We express our sincere acknowledgement to the authors whose research papers, books, monographs, etc., we had consulted for crucial information on the subject. Similarly, we are grateful to Dr. Kanchan, wife of Dr. Avinash Kumar (First Author) and Mrs. Smrutirekha Palai, wife of Dr. Gopal C. Mahakud (Second and Corresponding Author) of the book.

We are also thankful to Professor, N. K. Chadha, Professor and Head of the Department of Psychology, University of Delhi, Prof. Anand Prakash, Prof. Nandita Babu, Dr. S.P.K. Jena and other teachers of Dept. of Psychology, University of Delhi, for their sincere encouragement. Similarly, we are also thankful to Dr. Madhu Pruthi, Principal, Keshav Mahavidyalaya, University of Delhi, for her continued support and encouragement during the preparation of the book. We are also thankful to Dr. Harpreet Bhatia, Dr. Daisy Sharma, Dr. Dimple Mahanta, Dr. Reema Mahotra Bhola and others for their inspiration.

   (c) A biological science
   (d) A social science

2. Psychology as a ‘Science of Mind’, defined by ________ school of psychology.
   (a) Psychoanalysts
   (b) Behaviourists
   (c) Functionalists
   (d) Ancient Greek Philosophers

3. In the year ________ the Scientific Psychology was first accepted.
   (a) 1779
   (b) 1679
   (c) 1879
   (d) 1889

4. Who is the father of Experimental Psychology.
   (a) Wilhelm Wundt
   (b) Sigmund Freud
   (c) C.G. Jung
   (d) E.B. Titchener

5. Psychology can be literally defined as the ________.
   (a) Science of mind
   (b) Science of behaviour
   (c) Science of soul
   (d) Science of consciousness

6. J.B. Watson, the founder and father of behaviouristic school of psychology defined ‘Psychology’ as the science of ________.
   (a) Soul
   (b) Consciousness
7. E.B. Titchener (1867-1927) defined ‘Psychology’ as the science of ________.
   (a) Conscious Experience
   (b) Science of Mind
   (c) Science of Experience
   (d) Science of Soul

8. Who defined ‘Psychology’ as the scientific study of activities of organism in relation to its environment?
   (a) J.B Watson
   (b) Sigmund Freud
   (c) Wood worth
   (d) William James

9. “S-R” concept was first established by ________.
   (a) J.B Watson
   (b) Wilhelm Wundt
   (c) William James
   (d) I.P. Pavlov

10. Rejecting the concept of “S-R” connectionism, further “S-O-R” concept was developed by ________.
    (a) Woodworth
    (b) C.G. Jung
    (c) E.B. Titchener
    (d) Sigmund Freud

11. Who defined “Psychology as the science of immediate experience with consciousness being the main subject matter”?
    (a) E.B. Titchener
    (b) William James
    (c) Sigmund Freud
    (d) Wilhelm Wundt

12. Who is the founder and principal proponent of psychoanalysis ________.
    (a) Sigmund Freud
    (b) E.B Titchener
    (c) C.G. Jung
    (d) Alfred Adler

13. Who is the psychologist who constructed the first intelligence test?
    (a) William James
    (b) J. B. Watson
    (c) William Mc Dougall
    (d) Alfred Binet

14. The occurrence of ‘O’ in ‘S-O-R’ concept is responsible in regulating the behavior of the organism and making psychological activity ________.
    (a) Complex
    (b) Dynamic
    (c) Fixed
    (d) Puzzled

15. Anything which evokes a response in the Organism is called.
    (a) Stimulus
    (b) Thing
    (c) Situation
    (d) Incidence

16. The method of ‘Field Observation’ is always considered as ________.
    (a) Subjective
    (b) Complex
    (c) Neutral
    (d) Objective

17. To study Abnormal Psychology means, to study mainly the nature of ________.
    (a) Normality of mind
    (b) Unconscious level of mind
18. Clinical Psychology deals with the practical aspect of ________.
   (a) Abnormal Psychology
   (b) Educational Psychology
   (c) Child Psychology
   (d) Experimental Psychology

19. Sigmund Freud is regarded as the father of ________ in psychology.
   (a) Gestalt school
   (b) Behaviouristic school
   (c) Functionalistic school
   (d) Psychoanalytic school

20. Ebbinghaus, had done the pioneering experiments on ________.
    (a) Perception
    (b) Emotion
    (c) Memory
    (d) Thinking

21. Science is invariably characterised by ________.
    (a) Its methodology
    (b) Its theory
    (c) Its fact
    (d) Its hypothesis

22. General psychology deals with ________.
    (a) Personality
    (b) Development
    (c) Intelligent
    (d) Fundamentals of all branches of psychology

23. Industrial Psychology is ________.
    (a) Theoretical Psychology
    (b) Applied Psychology

24. Developmental Psychology studies ________.
    (a) Personality
    (b) Motivation
    (c) Intelligence
    (d) Various stages of development of man

25. Abnormal Psychology is concerned with ________.
    (a) Developmental stages of individual
    (b) Diagnosis of abnormal behaviour
    (c) Abnormal behaviour and its causes
    (d) Treatment of abnormal behaviour

26. Social Psychology deals with ________.
    (a) Behaviour of an individual at work
    (b) Behaviour and experience in social situations
    (c) Behaviour of ethnic groups
    (d) Abnormal Behaviour of people

27. Psychology is the science studying the behaviour of ________.
    (a) Mankind
    (b) Living Organism
    (c) Animals
    (d) Plants

28. Some of the most useful knowledge of human perception has borrowed from ________.
    (a) Chemistry
    (b) Physics
    (c) Sociology
    (d) Zoology
29. A major part of developmental psychology is devoted to the understanding of behaviour of _________.
   (a) Children
   (b) Adolescents
   (c) Women
   (d) Old people

30. Who is the founder of ‘Individual Psychology’?
   (a) David Hull
   (b) Thorndike
   (c) Alfred Binet
   (d) Alfred Adler

31. From the following pioneered psychologist who is associated with Behaviourism?
   (a) B.F. Skinner
   (b) William James
   (c) Megde Arnold
   (d) David Hull

32. Who is recognised as the father of psychoanalysis?
   (a) Sigmund Freud
   (b) Tolman
   (c) Alfred Adler
   (d) William James

33. Wolf Gang Kohler was associated with ________ school of psychology.
   (a) Social Psychology
   (b) Gestalt Psychology
   (c) Industrial Psychology
   (d) Educational Psychology

34. The “Law of effect” was coined by ________.
   (a) Skinner
   (b) Pavlov
   (c) Kohler
   (d) Thorndike

35. Archetype is a terminology associated with ________.
   (a) Jung
   (b) Freud
   (c) Adler
   (d) Skinner

36. Who established the first experimental psychological laboratory?
   (a) Sigmund Freud
   (b) B.F. Skinner
   (c) Evan Pavlov
   (d) Wilhelm Wundt

37. Who is the valuable contributor in insightful learning?
   (a) Throndike
   (b) B.F. Skinner
   (c) Evan Pavlov
   (d) Kohler

38. The most pioneered contributor to Behavioural school of psychology is ________.
   (a) Freud
   (b) Allport
   (c) Watson
   (d) Fechner

39. Wilhelm Wundt established the first laboratory of experimental psychology at ________.
   (a) Greenwich
   (b) Zurich
   (c) Leipzig
   (d) Munich
40. From the following psychologist, who rejected introspection as a method of psychology ________.
   (a) B.F. Skinner
   (b) Fulton
   (c) Cattell
   (d) J.B. Watson

41. In which method of study of psychology, independent and dependent variable are important elements.
   (a) Introspection Method
   (b) Experimental Method
   (c) Observational Method
   (d) Case History Method

42. In ________ method of study in psychology, passive study and analysis of human behaviour is usually done.
   (a) Introspection Method
   (b) Experimental Method
   (c) Observational Method
   (d) Genetic Method

43. In the simplest experimental method, ‘E’ manipulates ________.
   (a) One Variable
   (b) Two Variables
   (c) Three Variables
   (d) Four Variables

44. What it is called, when more than one independent variable works in an experimental situation.
   (a) Situational Crisis
   (b) Interaction
   (c) Multisituational Effect
   (d) Variable Crisis

45. Who has been considered as the father of psychoanalysis method of study ________?
   (a) Sigmund Freud
   (b) E.B Titchener
   (c) C.G. Jung
   (d) Alfred Adler

46. Who has been credited as the first developer of first intelligence test and made important contributions to our understanding of the thought process?
   (a) William James
   (b) Alfred Binet
   (c) William McDougall
   (d) J.B. Watson

47. The concepts like “Introspection” and “Conscious Experience” are associated with ________.
   (a) Functionalism
   (b) Behaviourism
   (c) Structuralism
   (d) Gestalt Psychology

48. A Provisional theory to explain observed facts is known as ________.
   (a) Construct
   (b) Theory
   (c) Hypothesis
   (d) Event

49. ________ is the least noticeable value of stimulus.
   (a) Stimulus Threshold
   (b) Response Threshold
   (c) Hypothesis
   (d) Problem
50. Which one of the following approaches tries to analyze human behavior in terms of stimulus-response units acquired through the process of learning, mainly through instrumental conditioning?
   (a) Cognitive Approach
   (b) Dynamic and Psychoanalytic Approach
   (c) Stimulus-Response Behaviouristic Approach
   (d) Existential Approach

51. _______ approach is popularly rooted in Gestalt psychology.
   (a) Wholistic Approach
   (b) Stimulus-Response-Behaviouristic Approach
   (c) Dynamic and Psychoanalytic Approach
   (d) Cognitive Approach

52. _______ approach emphasizes the role of instinctual processes and their modification in the course of interaction with the society.
   (a) Dynamic and Psychoanalytic Approach
   (b) Cognitive Approach
   (c) Holistic Approach
   (d) Stimulus-Response Behaviouristic Approach

53. The system which still survives very nearly in its rigid forms is _______.
   (a) Cognitive Approach
   (b) Dynamic and Psychoanalytic Approach
   (c) Holistic Approach
   (d) Existential Approach

54. Psychologists with the Biological perspective try to relate behavior to functions of ________.
   (a) Body
   (b) Mind
   (c) Soul
   (d) Unconscious

55. The perspective which is concerned with characteristic changes that occur in people as they mature is known as ________.
   (a) Developmental Perspective
   (b) Biological Perspective
   (c) Humanistic Perspective
   (d) Psychoanalytic Perspective

56. For the first time, the word ‘Psychology’ is introduced by ________.
   (a) Rudolf Goekle
   (b) William James
   (c) Sigmund Freud
   (d) C. G. Jung

57. Rudolf Goekle used the word ‘Psychology’ for the first time in the year ________.
   (a) 1590 AD
   (b) 1095 AD
   (c) 1950 AD
   (d) 1509 AD

58. Which branch of psychology deals with the study of animal behavior?
   (a) Social Psychology
   (b) Comparative Psychology
   (c) Abnormal Psychology
   (d) Differential Psychology
59. Woodworth’s approach to define Psychology is_________.
   (a) Dynamic  
   (b) Constant  
   (c) Fluctuating  
   (d) simple

60. Who is the Founder of Gestalt Psychology ________?
   (a) Kurt Koffka  
   (b) Max Wertheimer  
   (c) Kurt Lewin  
   (d) Wolfgang Kohler

61. ________ field of psychology focuses on the potential role of evolution in behaviour.
   (a) Developmental Psychology  
   (b) Physiological Psychology  
   (c) Evolutional Psychology  
   (d) Cognitive Psychology

62. Which perspective of psychology emphasizes the overt behaviour of the individual?
   (a) Developmental Perspective  
   (b) Behaviouristic Perspective  
   (c) Humanistic Perspective  
   (d) Psychoanalytic Perspective

63. Thought process is the main component of ________ perspective.
   (a) Gestalt Perspective  
   (b) Biological Perspective  
   (c) Humanistic Perspective  
   (d) Cognitive Perspective

64. ________ perspective focuses on changes in behaviour and cognitive processes over the life span.
   (a) Developmental Perspective  
   (b) Biological Perspective  
   (c) Humanistic Perspective  
   (d) Psychoanalytic Perspective

65. ‘Behaviour can be influenced by social and cultural factor’, the ________ perspective of psychology emphasizes it.
   (a) Developmental Perspective  
   (b) Biological Perspective  
   (c) Humanistic Perspective  
   (d) Socio-cultural Perspective

66. The frameworks for explaining various events or process in science is known as ________.
   (a) Facts  
   (b) Theories  
   (c) Models  
   (d) Hypothesis

67. Emphasizing what comes to mind first or most readily/quickly is known as ________.
   (a) Heuristic  
   (b) Critical Thinking  
   (c) Intuitive Thought  
   (d) Confirmation Bias

68. A systematic study of facts according to a reliable and correct method of study is called a ________.
   (a) Scientific Study  
   (b) Biological Study  
   (c) Social Technique  
   (d) Methodology
69. The concept of building block of consciousness was laid by ________.
(a) Watson  
(b) Wundt  
(c) Freud  
(d) Jung

70. Who is the first woman, awarded Ph. D in psychology?
(a) Anna Freud  
(b) Margaret Floy Washburn  
(c) Melanie Klein  
(d) Karen Horney

71. In the year 1913, C. G. Jung, established his school after separated from Sigmund Freud, which is known as ________.
(a) Psychoanalysis School  
(b) Individual Psychology  
(c) Psychoanalytical School  
(d) Child Psychology

72. The ________ law of psychology deals with least noticeable difference in different stimuli.
(a) Gelsalt Law  
(b) Watson Law  
(c) Binet–Simon Law  
(d) Weber-Fechner Law

73. Gestalt psychology taking its name from the German word ‘Gestal’ which literally means ________.
(a) World  
(b) Whole  
(c) A part  
(d) Whole vs part

74. Who promoted the formulation of Elementism?
(a) Sigmund Freud  
(b) Aristotle  
(c) Plato  
(d) Paul Broca

75. The concept of Rationalism is developed by ________.
(a) Sigmund Freud  
(b) Aristotle  
(c) Plato  
(d) Paul Broca

76. Who proposed that mind and body are two separate entities and interact with each other?
(a) Rene Descartes  
(b) Aristotle  
(c) Plato  
(d) Paul Broca

77. Who is an important functionalistic psychologist was particularly interested in consciousness, memory and emotions?
(a) John Dewey  
(b) William James  
(c) Thorndike  
(d) Skinner

78. What is the name of the person established the School of Individual Psychology?
(a) Adler  
(b) Jung  
(c) Anne Freud  
(d) Eric Fromm
79. Who is a pioneer contributor to the Cognitive Psychology?
   (a) Jean Piaget
   (b) Kohler
   (c) Chomsky
   (d) Kholberg

80. The modern psycholinguistic theory was developed by ________.
   (a) Chomsky
   (b) Kohler
   (c) Piaget
   (d) Kholberg

81. The concept of psychology came into teaching and the first psychology course offered by ________.
   (a) Willhelm Wundt
   (b) E. B. Titchner
   (c) J. B. Watson
   (d) William James

82. Abraham Maslow and Carl Roger were the founder of ________ approach.
   (a) Developmental approach
   (b) Biological approach
   (c) Humanistic approach
   (d) Socio-cultural approach

83. Hope, happiness, optimism and flow work together as ________.
   (a) Cognitive psychology
   (b) Positive psychology
   (c) Humanistic psychology
   (d) Evolutionary psychology

84. Wilson was the strong supporter of ________ plays vital role for shaping of behaviour.
   (a) Genes
   (b) Culture and environment
   (c) Past life
   (d) God or almighty

85. The role of brain, body chemical, central nervous system, neural mechanism, etc., are considered the ________ branch of psychology.
   (a) Cognitive psychology
   (b) Positive psychology
   (c) Neuropsychology
   (d) Evolutionary psychology

86. Who proposed the famous PASS theory on psychology?
   (a) Binet-Simon
   (b) Cattell
   (c) J. P. Das
   (d) Thurstone

87. The first psychological laboratory was established in India at ________.
   (a) Delhi University
   (b) Bombay University
   (c) Calcutta University
   (d) Banaras Hindu University

88. First Psychology department started in the department of philosophy at Calcutta University in the year ________.
   (a) 1905
   (b) 1916
   (c) 1890
   (d) 1780

89. First psychology Department at in India established by the headship of ________.
   (a) Prof. K. D Bruta
   (b) Prof. N. N Sengupta
   (c) Prof. G. Gupta
   (d) Prof. Ganguli
90. The famous book ‘Principles of Psychology’ was authored by________.
   (a) Willhelm Wundt
   (b) E. B. Titchner
   (c) J. B. Watson
   (d) William James

91. According J. B Watson, ‘Psychology is a Science of ________’.
   (a) Soul
   (b) Mind
   (c) Behaviour
   (d) Brain

92. Some of our most useful knowledge of human perception borrowed from ________.
   (a) Physics
   (b) Chemistry
   (c) Sociology
   (d) Mathematics

93. The structuralist intended to identify the building blocks of ________.
   (a) Consciousness
   (b) Subconsciousness
   (c) Unconsciousness
   (d) None of the above

94. Who discovered that all mental processes are not accompanied by mental imagery?
   (a) Willhelm Wundt
   (b) E. B. Titchner
   (c) J. B. Watson
   (d) Oswald Kulpe

95. The functionalist strongly influenced by ________.
   (a) Willhelm Wundt
   (b) Charles Darwin
   (c) J. B. Watson
   (d) William James

96. Who is credited for setting up the first psychological laboratory in United States?
   (a) Willhelm Wundt
   (b) Charles Darwin
   (c) J. B. Watson
   (d) William James

97. What is the meaning of ‘Flock’ according to Gestalt psychology?
   (a) The whole
   (b) Perceptual unit
   (c) Perception
   (d) Closure

98. Who is the father of psychodynamic theory?
   (a) Willhelm Wundt
   (b) Charles Darwin
   (c) Sigmund Freud
   (d) William James
